ANNOUNCEMENT

All the items we offer are of our own growing, high germination, and absolutely true to type, produced with the finest possible planting seed. Our personnel has had over a quarter of a century's experience in the production of the cucurbits, and we invite comparative trials with stocks from any other source. Samples for trial gladly furnished gratis.

Our California and Colorado warehouses are fully and completely equipped with modern machinery and equipment to handle production in a skillful and efficient manner. We exercise unusual care in germination tests and in further refining our seeds, to eliminate all foreign matter. Optional at slight extra cost, seeds may be packaged in one, two, and three pound bags and treated with disinfectant powders.

We make a great specialty of the reproduction of special strains—no quantity too large or too small. Send us your special stock seeds for reproduction purposes. (4 pounds per 250 pounds desired.)

Our terms are 1% 10 days, 30 days net with Trade Acceptance, to all well rated firms, others draft with B/L. Delivery is at our option. F.O.B. Rocky Ford, Colo., or Modesto, Calif., with containers billed at cost.

We shall be governed by a commercial credit agency's report in determining our terms. Any claims against our shipments must be made within two weeks after arrival of our goods; we are never liable to more than invoice price of goods. If the final yield of seeds be under our field estimate, we are under no obligation to fill as estimated. The other terms are as per the usual custom with seed growers.

We therefore respectfully ask you to give due consideration to this list and favor us with a fair share of your orders.

OUR POLICY

We are continuing our strict policy of quoting the larger users of our seeds, only. We question if any vegetable seed grower in the U.S.A. is more firm with this policy than ourselves. It is never our intention to quote trade that will in any way conflict with that of our customers.
